

Unitek Learning Announces Their Expansion to the State of Utah

Unitek's healthcare programs will now be offered at three campuses in Northern Utah.

Newport Beach, California – September 10, 2018 – On September 4, 2018, Unitek Learning announced their game-changing expansion to Utah through the acquisition of Eagle Gate College and Provo College. With seven convenient locations in California and the addition of the campuses of Eagle Gate and Provo, the Unitek family of schools can now provide a greater geographical reach for students and employers.

“This acquisition will significantly enhance our ability to provide quality education for a fast-paced world. The resources and expertise of our California counterparts will help us grow and improve what we are currently doing,” said Chuck Ericson, Chief Operations Officer at Eagle Gate College. “We share the same core values and growth initiatives as Unitek College. Above all else, we are all focused on student success.”

Unitek's triple acquisition starts with Provo College in Utah County. A traditional school, Provo College maintains three thriving programs for healthcare professionals. They receive numerous students from larger universities, such as Brigham Young University and Utah Valley University. In the cities of Murray and Layton, Unitek has also acquired two Eagle Gate College campuses.

The Murray campus sits at the heart of Salt Lake Valley and can be easily reached by the various communities within Salt Lake County. Both the Murray and Layton campuses offer comprehensive training for aspiring nurses and Medical Assistants. From first contact to after completion, Unitek helps each individual overcome obstacles with support from their industry-experienced instructors and student-focused staff.

“We are absolutely thrilled to announce our expansion to Utah,” said Janis Paulson, Chief Executive Officer at Unitek Learning. “It has been a year of growth and opportunity at Unitek, and we look forward to continual growth at our newly acquired campuses. We want to help bridge the gap between those seeking rewarding careers in healthcare and the employers who need to keep pace with growing healthcare demands.”

Unitek Learning is the parent company of two distinguished learning institutions: Unitek EMT and Unitek College. Taught by experienced professionals, Unitek programs teach the best-practice clinical technique and theory used in the field today. Equipped with a multitude of sought-after skills, Unitek graduates are prepared to excel in many of the fastest-growing careers in healthcare and nursing.
